EDUCATION

B.Tech Artificial Intelligence and Data Science, St.Jospeh's College Of Engineering
CGPA : 8.06

2024-27

SKILLS

- Programming language: Python,Java(FOP),
- Libraries: Scikit_Learn,Tensorflow,Pytorch,Opencv,Langchain,Flask,Sqlite, scipy
- HTML,CSS,Javascript
- Regression,Classification,Clustering , TimeSeries,Model Testing,Computer vision, Natural Language Processing, Data Analysis,MYSQL,Vectorstores,Transformers,Web Development,LLM,ETL, RAG,Azure AI Foundry,GenAI,Azure Openai,AI Agents,Azure ,Azure AD
- **Tools** : Hugging Faces,PowerBI,ChatGPT,Gemma,Groq,Grok,claude,llama,Docker, Labelme, LabelImg,Streamlit,Git,Github,

EXPERIENCE

National Sutdent Data Corps - SJCE - Chairperson

Nov 2024 - Present

- Found an community titles National Student Data Coprs -SJCE first time in Tamil nadu .
- Educate ,train the members of the community in the field of AI and Data science and help them in getting internships and provide lectures or course materials

Meritshot - Data Science Intern

Sep 2024 - Nov 2024

- Worked on Data Analysis and performed EDa on the provided dataset
- Documented the blog about the topics in data science

PROJECTS

Onemed - A multiagent medical chatbot application

- Developed a chatbot with LLM-powered agentic capabilities, integrating document retrieval and external search tools with .
- Implemented Azure Map for doctor and hospital location services
- Implemented prescription analyser and medical report analyser with Azure OCR and Azure Openai to refine the results with BI insights and implemented online medical procurement
- **Skills** : Python,Webdevelopment,Git,Azure AD,Azure AI foundry,Azure Openai,Azure maps,Azure OCR,Gemini,Langchain,Genai,RAG,Stremalit,Flask,Docker,Azure VM,Azure Functions

FarmAssure

- Developed a contract farming application using Flutter and Firebase to connect farmers, wholesalers, retailers, and exporters with a transparent and efficient platform.
- Integrated ChatGPT for AI-driven real-time price negotiations and multilingual communication to enhance user interaction.
- Implemented secure authentication, verifiable e-signatures, quality assurance mechanisms, and a structured product listing system.

- Integrated Razorpay for seamless and secure transactions, along with real-time chat and video conferencing for contract negotiations.
- **Skills : Flutter, Firebase, ChatGPT, Razorpay, Dart, AI-based Negotiation, Payment Integration**

CERTIFICATIONS

- Azure AI Fundamentals - **Microsoft Learn**
- GitHub Foundation - **GitHub**
- Python For Data Science - **IIT Madras**
- Front End Development- **Great Learning**
- SQL and Relational Databases 101- **Cognitive Class**

ACHIEVEMENTS & HONORS

- **Azure AI Innovation 2024 Winner** - Top 1/20
- Hack-A-Cloud Finalist
- Prayatna (PYDON) - Runner
- Madras Institute of Technology Coding Hackathon Club - Winner

INTERESTS & VOLUNTEERING

- Techincal Blogger - Medium
- National Student Data Corps - Chairperson
- Campus Ambassador - ELearn Market
- Kosaksi Pasupugazh - Open Source Contributor
